

#### PRODUCT DETAILS

The BlackOut® Swivel Hard-Arm Chair just may be the most comfortable hunting chair ever made! It sets up quickly and easily in seconds, and features arm rests for added comfort and a quiet, 360° swivel seat that lets you turn and take shots that you otherwise might not be able to. The strong steel frame has a durable powder-coat finish with a wide, stable quad base and independently-adjustable legs for sure seating on uneven terrain, and wide pivoting feet prevent chair from sinking into ground. Foam padded hard-arms provide all-day comfort; heavily padded back support; and water-resistant neoprene, breathable mesh seat. Frame collapses down to a compact carry size. Carry shoulder strap is attached to seat frame. Weight: 14 lbs. Dimensions: 20"x15"x32". **Weight capacity: 300 lbs.**
